## Private Patient Dental Care Information Leaflet

---

Private dental care for all the family

## Welcome to the practice

---

May we extend a warm welcome to the practice. Dental services were re-established in Hopton in 1985 by Mrs Hassan.

Mrs Hassan qualified from The University of Sheffield in 1977, Ms Ramsavas from the University of the Western Cape in 1997 and Mrs Whittingham from The University of London in 1988.

Julia, Sarah, Rachel and Laura are our excellent chair-side assistants; they also deal with appointments and will probably be your first point of contact with the practice.

## Dental Care

---

We take great pride in the quality of our dentistry and want to make your visit a pleasant experience. Our aim is good dental health for you and your family through preventative dentistry. That means giving you regular dental advice and helping you to understand how to care for your teeth yourself, to reduce the need for dental treatment.

Oral sedation is available for anxious patients.

We welcome questions about dental health and we will be pleased to discuss your individual needs.

This leaflet will answer some basic questions but if you require any information please don't hesitate to ask.

## Registering with the practice

---

When you attend your first appointment you are instantly registered with the practice. At your first consultation we will discuss your treatment needs you will be given an estimate of the cost of your treatment. We appreciate a deposit of 50% of the estimated cost at the beginning of treatment. We are able to accept payment by credit or debit cards, cash or cheques.

We try to ensure that work is carried out to very high standards. We can offer a choice of materials and designs for treatment requiring laboratory work.

## Cosmetic Treatment

---

We are pleased to discuss your questions about how to improve your smile. There are many treatment options available such as bleaching, veneers, crowns and bridges. We also offer other treatments on referral to local specialists.

## Children

---

Children are registered with the practice at their first dental examination. Preventative advice and treatments such as fissure sealants and fluoride will be discussed along with healthy eating.

We pride ourselves on being friendly and open with our patients, offering them a service where they feel comfortable at all times. It is the policy of the practice to preserve your natural teeth by encouraging good preventative measures.

We offer a competitive and affordable pricing structure to ensure that the highest quality dental care is available

## Appointments and Emergencies

---

You can make an appointment by telephone or e-mail or you can call in to make arrangements.

If you need to be seen urgently, telephone the surgery for advice. If treatment is essential we will do our best to arrange it within 24 hours. For emergencies out of hours you should phone the surgery and an answerphone will give you instructions. An out of hours emergency rate of £100.00 will be charged for consultations outside surgery hours in addition to the cost of any necessary treatment.

Please give as much notice as possible if you have to cancel an appointment. We reserve the right to charge for missed appointments.

Complaints should be addressed in writing to Mrs J A Hassan. We welcome comments on the service.
